1-2-3 Utility Bill Assistance

1. Apply for MEAP and EUSP energy assistance.

Limited-income customers may be eligible for Maryland state energy assistance programs that can help pay off utility bills. Detailed descriptions of these programs is provided on page 4. There is one application used to apply for all of the Maryland state energy assistance programs.

Maryland Energy Assistance Program (MEAP) distributes funds for gas, oil, electricity and other home heating and cooling bills to limited income individuals and families.

Electric Universal Service Program (EUSP) is a program that helps low-income electricity customers pay their electric bills. Some customers who are not eligible for MEAP are eligible for EUSP.

Enrollment in these programs is not automatic. You must meet eligibility requirements and apply with a local assistance agency. Local assistance offices are listed in this guide. For locations in other counties, contact the Maryland Office of Home Energy Programs (1-800-352-1446).

IMPORTANT! Utility Shut-Off Serious Illness & Life Support If you have received a shut-off notice and someone in the home is seriously ill or needs life support equipment, contact the utility immediately. Maryland law states that if a physician presents a Public Service Commission **Medical Certification Form** stating termination of electric, gas or both will aggravate an existing serious illness or prevent the use of life-support equipment, a utility may not terminate service for an initial period of up to 30 days beyond the scheduled date of service termination. Once the physician's certification is presented to the utility, a customer must promptly enter into an agreement with the utility for the payment of any outstanding utility bills. You must send a physician's certification about the condition to the utility. A copy of the physician's certification is included in this packet.

2. Ask about other energy assistance funds.

You may be able to get additional assistance from a local Fuel Fund, or other state or local programs. Information about some of these funds is included in this packet. Ask for a phone number or referral when you apply for energy assistance.

3. Try to work out a payment arrangement.

You may still owe money to the utility even if you have already received energy assistance. Also, if your income is higher than the guidelines, you will not be eligible to receive EUSP or MEAP funds.

You should contact the utility to work out a reasonable payment plan for the past-due amount. If you try to work out a payment arrangement and are not successful, contact the Public Service Commission at 410-767-8028 (press "1" at the prompt) to make a complaint. You can also call toll-free at 1-800-492-0474. A *MPSC Inquiry/Dispute Form* is enclosed in this packet.

You may be able to get help from local agencies that work with senior citizens, persons with disabilities or faith-based organizations, particularly if you have had a household emergency such as a job loss, job injury, or high medical bills. Ask your local energy assistance agency about these programs.

BUDGET BILLING (EVEN MONTHLY PAYMENTS).

The utilities offer Budget Billing (an even monthly payment plan), which allows a customer to pay the same amount every month. The monthly payments are set based on a customer's expected annual usage. This amount is changed periodically if you use more or less gas or electricity than anticipated. The program does not eliminate monthly charges on the bill, but it does smooth them out. This program is especially helpful if a customer wants to maintain a fairly fixed amount of expenses throughout the year.

BILL EXTENDER PLAN. The utility is required to adjust a customer's bill due date if he or she receives monthly income through Social Security or through a government-sponsored assistance program. This can help avoid late payment fees, since a customer can pay the bill after receipt of his or her monthly income.

UTILITY SERVICE PROTECTION PROGRAM (USPP). USPP is a program designed to protect households from utility service terminations during

the winter. The program, established by the Public Service Commission, is available to MEAP recipients, and provides assistance (such as reconnection fee and security deposit waivers) to off-service customers. A customer must enroll in Budget Billing and apply the MEAP grant to the heating company bill.

PAYMENT ARRANGEMENTS WITH THE UTILITY.

A customer who is having difficulty paying gas or electric bills should ask the utility about a payment plan to pay past-due bills over time. A deferred payment plan should take a customer's individual circumstances into account, including other available assistance, income and the amount owed. If the utility will not work with the customer to establish reasonable payment arrangements, the customer may contact the Public Service Commission's (MPSC) Office of External Relations (OER) to request help mediating acceptable payment arrangement terms.

DISPUTES WITH THE UTILITY. A customer should contact the utility first to request information or resolve a dispute. If it is not resolved, a customer may file a complaint with the MPSC.

Office of Home Energy Programs (OHEP) - Energy Assistance Programs

MARYLAND ENERGY ASSISTANCE PROGRAM (MEAP)

MEAP is an energy assistance program that helps low-income households with their heating bills, and at times with their cooling bills. The program is available to homeowners and renters who meet the income requirements and heat with electricity, gas oil, propane, wood or other fuels. The program provides an annual grant that varies depending on household size, household income and type of home heating source.

ELECTRIC UNIVERSAL SERVICE PROGRAM (EUSP)

EUSP is a program which helps low-income electricity customers pay their electricity bills. The program is available to homeowners and renters who meet the income requirements, which are the same for MEAP and EUSP. Some customers who are not eligible for MEAP because they are in subsidized housing are eligible for EUSP. The program includes bill assistance, retirement of certain old bills, and weatherization services. EUSP bill payment assistance (BPA) requires the customer to enroll in Budget Billing. The annual EUSP BPA is then applied through the electric company's Budget Billing.

DHCD WEATHERIZATION ASSISTANCE PROGRAM (WAP)

The Weatherization Assistance Program (WAP) assists limited income families with reducing their energy usage. WAP makes an assessment of the physical structure of the applicant's home, and then installs energy conservation features such as insulation & caulking, replacement windows and doors, furnace cleaning and tuning, repair or replacement of furnaces, refrigerators and water heaters. Applicants must be eligible (currently 200% of poverty) and able to prove ownership of the housing unit. For rental units, landlords must prove ownership and also agree to participate and invest. Priority is given to homeowners who are elderly, disabled, have families with children and/or have the highest energy consumption. Applicants can apply for WAP on the same application used for MEAP and EUSP. OHEP then refers eligible clients to WAP for assistance.

If applicants are not eligible for OHEP (over 175% poverty up to 200% of poverty) they may apply thru their local WAP office.

2010 INCOME ELIGIBILITY LIMITS

WAP is funded by the U.S. Department of Energy (DOE) and is administered by the Maryland Department of Housing and Community Development (DHCD). Heating emergencies should be reported to the local OHEP office for customers above OHEP guidelines.

OHEP eligible applicants who are renters, with weatherization issues (poor windows/doors or faulty heating or hot water units), should contact their landlords. If the landlord is unwilling to correct the problem(s) the renter should contact the local housing inspection office.

Department of Social Services (DSS) - Energy Assistance

Each local DSS agency has discretion to allocate the funds described below in different ways. All of these funds may be available to assist households with children. Flex Funds and Local Funds may be available to single adult households and particularly older adults (possibly through Adult Protective Services). If a customer currently is not receiving services through DSS (e.g. TCA, TEMHA), he or she can still contact the local DSS agency for possible assistance with housing and energy emergencies. Please note that all of these grants are highly discretionary.

EMERGENCY ASSISTANCE TO FAMILIES WITH CHILDREN (EAFC)

EAFC is an emergency grant program that may be accessed once every 12 months. The grant may be used for household emergencies, including utility bills. It is available to families with one or more children under the age of 21, who are related to (and reside with) the applicant. A person does not have to be receiving any state assistance to apply for an emergency grant. However, he or she must document individual circumstances.

FLEX FUNDS

Flex Funds are provided to all local departments of social services to maintain or reunify children with their families. These monies are available for a variety of needs, but the goods and services purchased must be related to the child's or family's plan for service.

WELFARE AVOIDANCE GRANT (WAG)

These grants may be available to a person who has applied for and is eligible for Temporary Cash Assistance (TCA). The grant is intended to address household emergencies or other needs. If circumstances would prevent a household member from gaining or continuing employment. A grant usually is awarded in an amount equal to three months or less of assistance benefits. Any person who receives the grant must forego TCA for the number of months covered by the grant.

"SPECIAL" OR "LOCAL" FUNDS

"Special" or "local" funds are charitable or local funds administered by local DSS offices. Availability is intermittent and limited, and can be used for household emergencies. The local jurisdictions set

eligibility criteria and grant amounts. The funds are usually allocated based upon a household's income and level of need.

Private Charities & Other Funds

FUEL FUNDS

Local Fuel Funds are privately-funded charities that offer financial assistance to limited-income individuals with a utility bill crisis, when the individual has received a turn-off notice, or utilities service has been turned off. The Fuel Fund is the LAST STOP for financial assistance. Generally, all Fuel Funds use the MEAP/EUSP income guidelines (see page 5) for eligibility. However, all Fuel Funds require applicants to exhaust all other funding sources. Most, if not all, Fuel Funds partner with the local utility company, which provides 50% matching credits against applicants' payments and/or charitable contributions paid to the utility within the last 30 days. Matching credits cannot be used with state or federal assistance payments. The local Fuel Fund will determine the maximum dollar amount they can provide to each applicant.

Fuel Fund assistance is only available once in a 12-month period. Many local Fuel Funds require monies to be applied to the primary heating source of the applicant (gas, electric, oil, propane, kerosene, wood, etc.). However, some Fuel Fund monies can only be used to assist with the utility in partnership with the Fuel Fund. Check with your local Fuel Fund for application and program rules.
